The Landscape Contractor acknowledges that he or she has thoroughly investigated the supply of plant stock specified on this project and has obtained firm commitments from all the growers/suppliers listed. These commitments assure that the specified plant stock will be delivered as required to complete the Contract.

If information changes, the Contractor shall furnish the Engineer a revised MnDOT Certificate of Compliance no later than one week prior to the proposed planting date. As a condition for delivery and approval of plant stock, this Certificate of Compliance states that all plant stock furnished by the Contractor on this project is in conformance with the current edition of the MnDOT Standard Specification for Construction, the Supplemental Specifications, the Plans and Special Provisions, and the Contract Administration Manual for MnDOT Landscape Projects.

The attached Plant Stock Schedule shall list the following information for all plant stock specified: plant species, variety, size, root type, quantity, and growing range, supplier name, address, phone number, and growing range USDA hardiness zone. This Certificate of Compliance documents that all plant stock furnished by the Contractor on this Project is Category A (grown and cultivated on state-inspected growing ranges, within the Acceptable Plant Stock Growing Range, for at least the last two years), or Category B (grown outside of the Acceptable Plant Stock Growing Range, only if the seed source or root and graft stock is certified and documented as originating within the Acceptable Range). All plant stock shall be hardy to the Minnesota zone where the project is located.

The Landscape Contractor certifies that the information provided herein is accurate to the best of his or her knowledge:
