Subject: Airport Funding Rates
State Fiscal Year (FY) **2023** – *effective July 1, 2022, through June 30, 2023*

Dear Airport Sponsor:

Airport funding rates for the State Airports Fund (SAF) are required by statute to be set before June 1st of the previous fiscal year.

For State Fiscal Year (SFY) 2023, MnDOT's participation on state funded grants as well as the state matching share for Federal Aviation Administration Airport Improvement Program (FAA AIP) project grants **will remain the same as SFY 2022**. Please refer to the Addendum to the Airport Funding Rates Letter for the funding rates tables and additional supporting details.

A few key reminders and highlights for this year's letter:

- State match participation for the Infrastructure Investment and Jobs Act ("IIJA") grant program has not yet been determined. The Minnesota Legislature ended its regular session for 2022 without passing a bill that would provide IIJA match dollars. The Minnesota Legislature may appropriate state matching funds during SFY 23 for the purpose of greater state participation in the IIJA grant program. If the Legislature appropriates matching funds, it is anticipated that participation rates would be similar to those of the AIP grant program.
- Please carefully review all grant contract provisions prior to signature, particularly as they relate to document submission requirements prior to grant execution and at close-out.
- As a reminder, state funds are not eligible for use on federally eligible items where a federal funding gap exists.

Sincerely,

Ryan E. Gaug, AICP
Interim Director, Office of Aeronautics
