

Route System Descriptions

Official Statistics, Provided by the Office of Transportation System Management

This report is based on the Linear Referencing System (LRS) and is updated as needed.

Report Summary

Report lists route system descriptions.

Data

Route System: 2 digit code representing the entity that has legal ownership of a roadway irrespective of whether agreements exist for maintenance or other purposes. In the case of county and city roads, route system also reflects the state aid status of the roads.

Abbreviation: Abbreviation used to identify the Route System.

Description: Description of the Route System.
