Notes

¹ 2018 - 2022 crash data were compiled on September, 2023 via MnCMAT2.

² Mileage and were compiled from www.dot.state.mn.us/roadway/data/data-products.html#VMT

³ Population comes from Department of Administration, StateDemographic Center

⁴ Median is the middle of a distribution: half the numbers are above the median and half are below the median.

⁶ Standard deviation tells you how tightly the data are clustered around the sample mean.

Measure	Fatal Crashes per 100 MVMT	Crashes per MVMT	Fatal Crashes per 100K Pop	Crashes per 100k Pop
Mean	0.5	1.6	18.1	5,381
Median	0.4	1.5	15.2	4,825
Std Dev	0.5	0.7	15.5	2,834

Ranges for green, yellow, and red coloring were developed as follows:

green = all values at or below median

yellow = values between the median and the median + 1 standard deviation

red = all values above the median + 1 standard deviation
