

	Late 2020 to early 2021	Mid-2021 to Early 2022	Early 2022 to Early 2023	Early 2023
	Hwy 252/I-94 Scoping Decision Document (SDD)			Notice of Intent (NOI)
What is happening in the environmental review?	Project Purpose & Need	Project Scoping – Technical Analysis	Project Scoping – Community Engagement	Notice of Intent (NOI) to publish Hwy 252/I-94 SDD
	EHA During the Hwy 252/I-94 SDD			EHA during the NOI
What is happening in the EHA?	Develop EHA concept	Establish Equity & Health Neighborhood Advisory (EHNA) group Analyze health data Scope equity and health engagement	Engage communities on equity and health issues Synthesize community input in consultation with the EHNA group Evaluate how proposed SDD addresses equity & health conditions and priorities Provide input whether project alternatives should be added or removed before the SDD advances	Review MnDOT response to SDD comments
What will the EHA produce?	EHA scope Equity & Health Neighborhood Advisory (EHNA) group	REPORT 1: Equity & Health Baseline Conditions Document health conditions and disparities in corridor communities Initial equity and health findings to share, explore, and adjust through engagement with corridor communities	REPORT 2: Equity & Health Priorities Community perspectives on equity and health conditions Additional equity and health conditions not captured in Report #1 Community and EHNA identify equity and health priorities REPORT 3: Equity & Health Assessment of the Hwy 252/I-94 draft Scoping Decision Document Community- driven review of how the Hwy 252/I-94 SDD considers equity and health Recommendations for how to consider equity and health in the DEIS and what priorities could be considered outside of the DEIS by MnDOT and/or other agencies	Equity and health impact assessments for each Hwy 252/I-94 project alternative (to integrate into Report 4)
How does the EHA influence the environmental review?	Establishes process for how and when EHA information will flow into the project process Convenes representative community group	Provides baseline equity and health conditions Provides foundation for Reports 2 and 3	Establishes additional considerations related to equity and health for decision-making Equity and health considerations are raised during the formal public comment period	Provides equity and health impact information to inform engagement of historically underserved and overburdened populations
