- Projects were selected from each ATP based on:

**PROACTIVE PROJECTS:**

- Developed through the Country Roadway Safety Plan (CRSP) process  
OR
- Substantial compliance with projects listed in the CRSP
  1. All modified projects must have provided sound documentation for selection to be considered.

**REACTIVE PROJECTS:**

- Benefit/Cost Analysis of 1.0 or greater.
  - Location must have a significant crash history that includes a fatal and/or serious injury crashes.
- A list of funded proposals by county is provided in Exhibit A.
  - 50 applications were funded (48 Counties + 2 Cities), totaling over \$19.9 million.
