

**RECENTLY EXPIRED CERTIFICATION EXAM APPLICATION  
MnDOT TECHNICAL CERTIFICATION**

MnDOT Tech ID#: \_\_\_\_\_

Last: \_\_\_\_\_ First: \_\_\_\_\_ Mi: \_\_\_\_\_

Home Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Current job position: \_\_\_\_\_

Email address: \_\_\_\_\_

Employer: \_\_\_\_\_ Phone: \_\_\_\_\_

**Select the expired certification from the list:**

**Questions:**

1) Year your certification expires(ed): \_\_\_\_\_  
If you have more than one recently expired certification, complete a separate application for each.

2) Date of application: \_\_\_\_\_  
Applications will be processed between April 1 and September 15.

3) Required prerequisite certifications and expiration dates

| Certifications | Expiration Dates |
|----------------|------------------|
|                |                  |
|                |                  |
|                |                  |
|                |                  |

Certifications will not update until all required prerequisites are current. The exception is for linked certifications (Grading and Base Tester and Inspector; Concrete Field Tester- MnDOT only, not ACI, and Inspector; Bituminous Plant Tester and Mix Designer). Successful completion of a Recently Expired Certification Exam for these Inspector/Mix Designer certifications will automatically update the related Tester ones.

4.  I confirmed that MnDOT recertification course is no longer available.

**Questions (continued):**

5. Why did you not recertify as you were supposed to during the most recent certification season (November – May)?
  
  
  
  
  
  
  
  
  
  
6. Describe how you will use this certification during the current construction season. Why do you feel you need it?
  
  
  
  
  
  
  
  
  
  
7. To demonstrate you have current working knowledge of this certification content, list all relevant work experience from the past 5 years.
  
  
  
  
  
  
  
  
  
  
8.  I understand I must self-study to prepare for the exam.
  
  
  
  
  
  
  
  
  
  
9.  I understand a Recently Expired Certification Exam is the exam from the full, initial certification course. For Bridge Construction Inspector Certification, it is two exams.
  
  
  
  
  
  
  
  
  
  
10.  I understand that if I pass the exam, the certification expiration date will be May 31, five years from the expiration year. If I want to recertify again in the future, I will complete a recertification class in the training season before the expiration date.

**Send this form with a copy of your current Technical Certification card to:**

tech-cert.dot@state.mn.us

See [mndot.gov/technical-certification](http://mndot.gov/technical-certification), to access your current Technical Certification card
