

# Hwy 19 and County Road 2 Roundabout

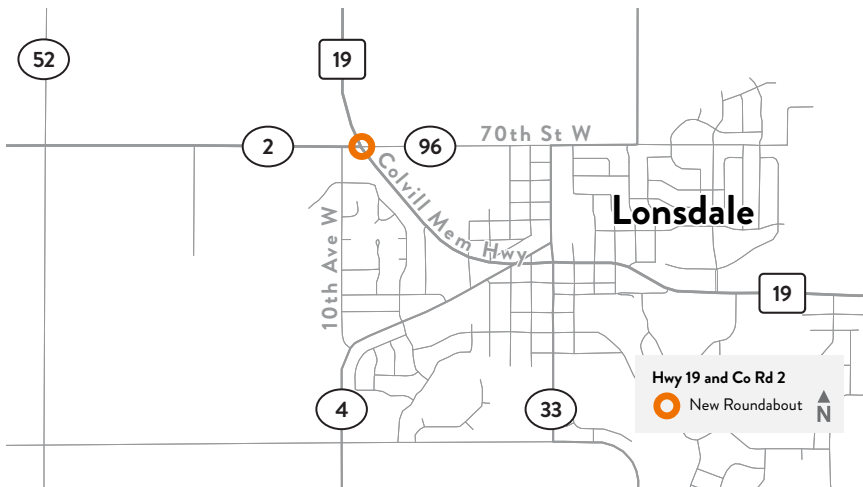

## Project Overview

**A new roundabout at Hwy 19 and Rice County Road 2 will be constructed in 2025.**

The Hwy 19 and County Road 2 intersection provides access to and from Hwy 19 and connects Lonsdale with surrounding communities and the Twin Cities area. This intersection, which has a skewed alignment and fast-moving traffic, has a history of safety issues. In 2020 there was a fatal crash and there have been other serious crashes in recent years.

MnDOT has identified this location as a high priority location for safety improvements and received federal funding to construct a roundabout. The roundabout is designed to slow traffic coming into town while maintaining traffic flow and reducing the likelihood of serious crashes.

### ▼ Benefits

Improves safety for all users

Reduces speed through the area

Keeps traffic moving

Better manages travel needs at the intersection

### ▼ Anticipated Schedule

2023		2024				2025			
Fall	Winter	Spring	Summer	Fall	Winter	Spring	Summer		
Complete Layout		Final Design				Bids		Construction
