

USDOT BONDING EDUCATION PROGRAM

Many small businesses face difficulty in accessing enough bonding and financing to grow their business. The USDOT's Bonding Education Program provides small and disadvantaged businesses the tools and resources required to compete for transportation projects.

Learn more about procurement opportunities on federal and municipal contracts. Network with surety and lending representatives. Also learn about other small business resources to advance your business. This is a two-day, 10-hour program.

For this bonding education program, MnDOT is partnering with USDOT and the Surety and Fidelity Association of America. **Registration is required.**
