

EROSION PREVENTION AND SEDIMENT CONTROL INSTALLER CERTIFICATION

Training and certification with a focus on DBE contractors

Erosion control services are highly sought after for MnDOT construction projects. Gain the technical skills to successfully pursue construction subcontracts:

- | | |
|------------------------------------|---------------------|
| Erosion prevention | Sediment control |
| • Mulching | • Sediment traps |
| • Seeding | • Silt fencing |
| • Geotextiles, matting and netting | • Perimeter control |
| • Soil retention | |

The University of Minnesota will administer the Erosion Control Certified Installer exam at the end of the course.
