Item #	Information Requested	Answer
1.0	Box Make and Model	TOWMASTER RDS
	List Truck Type Box Fits	SINGLE & TANDEM Axle
	Box Style	All Purpose SS Radius Dump Body, & Spreader Combination, w/Trunion mount front Telescopic Hoist.
	Width & Length of Box	96" wide O.D. x Length (see table below)
	Side Panel Description	44 inches tall, brake formed from 7GA stainless steel to a radius of 46 inches, with boxed top rails of 7GA stainless steel formed channel & includes front and rear board pockets, 6" high.
	Front Panel Description	Sloped to accommodate a head-lift cylinder with partial doghouse, and conforms to the radius of the body, 100% continuously welded on the inside and
	Floor Description	Conveyor style, 1/4" stainless, replaceable floor with 7GA stainless steel removable chain guards, and equipped with a heavy-duty idler assembly that will provide adjustment for proper conveyor chain tension by use of slide rail style adjusters and 1-1/4" stainless bolts with stainless lock nuts. Conveyor is driven by two 6:1 spur gearboxes and high torque/low speed hydraulic motors. (SEE ALSO OPTION FOR AUGER DISCHARGE)
	Corner Post Description	Box Section formed of 7GA stainless steel Driver side corner post includes a double acting air cylinder in post along with the over-center tailgate latch system with under rod running to passenger post linkage. The corner posts have stainless access panels for servicing the latch

		Under Structure Description	The long members are 1/4" stainless steel, 14" deep. The long members are joined by sections of 4" channel, welded every two feet the length of the spreader at the base of the long members, along with 3" x 3" 7GA stainless angle welded every 12" the full length of the conveyor at the top of the long members to support the bolt-in floor. The rear of the body is supported by two formed pieces of 7GA stainless steel plates contoured to the radius of the body and welded 100% on both sides. Additional reinforcement is provided by a 3/16" formed box section, placed at the rear of the spreader body and tied to two rear posts. formed of 3/16" mild or 7GA stainless steel. Together, they shall provide support at the rear of the body.
		Tailgate Description	50" high tailgate, mfg from 3/16" stainless steel with 1/4" side rails, double acting type with a squared perimeter, having three horizontal braces of 10 gauge and 1 top of 3/16" material full width of the tailgate. Latches are 1/2" flame cut with 2 side 1/4" plates welded together, latch being adjustable with threaded 5/8" clevis and 1/4" keeper pins.
		Hinge Description	1" x 4" bar stock connection point with a 3/8" double plate with 1-1/4" hardened
		Description of Peripheral Items (Lights, Access Steps, etc.)	FMVSS-108 approved (rubber grommet mounted) L.E.D. clearance lights, wiring harness, and L.E.D. cluster of 3 included. Rear mudflaps included. Rear Poly spinner assembly, and trunion mount telescopic hoist cylinder included.
		Is Installation included in price?	Yes___ or No X

Item #	Information Requested	Answer
1.0	Box Make and Model	TOWMASTER RD
	List Truck Type Box Fits	TANDEM Axle
	Box Style	All SS Large Radius Dump Body, w/Trunion mount front Telescopic Hoist.
	Width & Length of Box	96" wide O.D. x Length (see table below)
	Side Panel Description	44" tall, brake formed from 7GA stainless steel to a radius of 43 inches, with boxed top rails of 7GA stainless steel formed channel & includes front and rear board pockets, 6" high. (See also floor)
	Front Panel Description	50" Tall, Sloped to accommodate a head-lift cylinder with partial doghouse, and conforms to the radius of the body, 100% continuously welded on the inside and outside.
	Floor Description	7GA stainless steel construction, contoured (continuation of side radius) supported by crossmembers between the
	Corner Post Description	Box Section formed of 7GA stainless steel Driver side corner post includes a double acting air cylinder in post along with the over-center tailgate latch system with under rod running to passenger post linkage. The corner posts have stainless access panels for servicing the latch
	Under Structure Description	The long members are 1/4" stainless steel, 14" deep. Additional reinforcement is provided by a 3/16" formed box section, placed at the rear of the spreader body and tied to two rear posts. Together with contoured crossmembers they provide support at the rear and floor of the body.

		Tailgate Description	50" high tailgate, mfg from 3/16" stainless steel with 1/4" side rails, double acting type with a squared perimeter, having three horizontal braces of 10 gauge and 1 top of 3/16" material full width of the tailgate. Latches are 1/2" flame cut with 2 side 1/4" plates welded together, latch being adjustable with threaded 5/8" clevis and 1/4" keeper pins.
		Hinge Description	1" x 4" bar stock connection point with a 3/8" double plate with 1-1/4" hardened pins at top of tailgate.
		Description of Peripheral Items (Lights, Access Steps, etc.)	FMVSS-108 approved (rubber grommet mounted) L.E.D. clearance lights, wiring harness, and L.E.D. cluster of 3 included. Rear mudflaps included. Trunion mount telescopic hoist cylinder, Base, & Mounts included.
		Is Installation included in price?	Yes ___ or No X
		Is Box Painted?	Yes ___ or No X
		Warranty Information	12 months from "In Service" Date
		List Volume Discounts	0%
