

A woman wearing a hat and a light-colored shirt is riding a bicycle on a paved path. The background shows a line of trees and a clear sky. The entire image has a blue tint.

BICYCLE FACILITY

**DESIGN
MANUAL**

ACKNOWLEDGMENTS

The Minnesota Department of Transportation (MnDOT) acknowledges and thanks the many people who contributed time and expertise to develop this manual. In addition to those who participated in the committees listed below, many others, including MnDOT’s professional staff, key stakeholders and partners contributed valuable technical review to make this manual a useful resource that will help create more multimodal choices in Minnesota—and make it a state where bicycling is safe, comfortable and convenient for all people.

PROJECT TEAM

MnDOT Project Managers and Staff

Melissa Barnes, MnDOT Metro District North Area Manager

Sonja Piper, MnDOT Office of Traffic Engineering

Hannah Pritchard, MnDOT Office of Transit and Active Transportation

Angela Rehbein, MnDOT Office of Communications

Liz Walton, MnDOT Office of Transit and Active Transportation

Project Advisory Committee

Simon Blenski, City of Minneapolis Public Works

Sara Buermann, Wright County Traffic Engineer

Amber Dallman, MnDOT Office of Transit and Active Transportation

Todd Grugel, MnDOT ADA Design and Construction

Andrea Hendrickson, MnDOT Hydraulics

Paul Johns, MnDOT Construction

Nick Mason, Bicycle Alliance of Minnesota

Michelle Moser, MnDOT Design Standards

Mike Kempinger, MnDOT Design – District 6

Jordan Kocak, Hennepin County Bicycle and Pedestrian Coordinator

Jon Mason, MnDOT Planning – District 3

Sara Pflaum, MnDOT State Aid

Dan Prather, MnDOT Bridge Office

Philip Schaffner, MnDOT Office of Transportation System Management

Kent Skaar, Minnesota Department of Natural Resources, Trails and Waterways

Will Stein, Federal Highway Administration

Mackenzie Turner Barga, MnDOT Metro District Pedestrian & Bicycle Coordinator

Bob Vasek, MnDOT Maintenance Office

Jim Weatherhead, MnDOT Rail

Technical Advisory Committee

Melissa Barnes, MnDOT Metro North Area Engineer

Kristie Billiar, MnDOT ADA Program and Policy Coordinator

Bruce Holdhusen, MnDOT Design Flexibility Unit

Jamal Love, MnDOT Geometric Design Support Unit

Jim Rosenow, MnDOT Design Flexibility Unit

Consultant Team

Alta Planning and Design: Colin Harris, Joe Gilpin, Maria Wardoku, Kent Laughlin

Special Thanks

MnDOT thanks staff at the following municipalities and governing bodies for sharing their insight and expertise throughout.

City of Minneapolis

Hennepin County

DISCLAIMER

The manual was developed based on national design standards and accepted industry practices, in particular the American Association of Highway Transportation Officials *Guide for the Development of Bicycle Facilities* (2012 edition and 2020 draft). The manual should be used in conjunction with the current versions of the MnDOT *Road Design Manual* and the *Minnesota Manual on Uniform Traffic Control Devices*. The manual is not intended as a legal standard, and all design guidance should be considered with engineering judgment.

CONTENTS

1

Introduction

Introduction.....	1-2
Purpose of this Manual.....	1-3
Scope and Context of this Manual.....	1-5
Using This Manual.....	1-6
Federal Transportation Law and Policy.....	1-7
State Law	1-8
MnDOT Policy & Plans	1-10

4

Operational Characteristics & Elements of Design

Introduction.....	4-2
Bicyclist Characteristics	4-3
Stopping Sight Distance.....	4-6
Facility Transitions	4-7
Pavement Markings, Signs & Signals.	4-8
Drainage.....	4-24
Lighting.....	4-24
General Intersection Design Principles	4-25

2

Scoping, Planning and Project Coordination

Introduction.....	2-2
Planning & Project Development	2-4
Public and Stakeholder Engagement	2-8
Equity.....	2-11
Bicycle Network Planning.....	2-13

5

Bicycle Facilities

Introduction.....	5-2
Shared Use Path.....	5-3
Sidepath	5-21
Separated Bike Lane	5-29
Bike Lane	5-37
Paved Shoulder	5-52
Shared Roadway	5-57

3

Facility Selection

Introduction.....	3-2
The Role of Safety in Bicycle Facility Selection	3-3
Bicyclist User Profiles	3-3
Land Use Context	3-7
Project Type	3-9
Bicycle Facility Types	3-12
Selecting a Bicycle Facility.....	3-13

6

Maintenance

Introduction.....	6-2
Pavement Condition	6-5
Debris and Obstructions.....	6-8
Winter Maintenance.....	6-9
Pavement Markings and Signs....	6-11

7

Special Design Elements

Introduction.....	7-2
Vehicle Bridges.....	7-3
Vehicle Underpasses.....	7-7
Pedestrian and Bicycle Bridges and Underpasses	7-8
Interchanges	7-10
Roundabouts.....	7-13
Alternative and Innovative Intersections	7-16
Median Refuge Islands	7-17
Continuous Raised Medians	7-19
Channelized Right Turn Islands... ..	7-20
Curb Extensions	7-21
Speed Tables, Raised Crossings and Raised Intersections	7-22
Mountable Truck Aprons.....	7-23
Rails & Railroad Grade Crossings	7-24
Bike Parking.....	7-27
